Preface

Dear Reader,

This is a passionate and invigorating book on God and His marvelous creation. For those of you who love science, you will find this book stimulating and revealing on just how big and amazing our God is. In this book you will also discover that in His creation was a prophetic voice... and a plan that is so relevant for us today.

Sit back and enjoy this book and let it expand your heart and enlighten your soul. I guarantee it will cause you to look at the world around you with new eyes... God's eyes. It is so great to marvel at His brightness and see His unfathomable and spectacular design and discover our place in that design - something we so often take for granted!

You will truly enjoy this writing!

God Is Light!

Part 1

God calls Himself “light” in scripture. How does He mean this? Anyone that has read my articles or heard my teachings will know that I take the hard-line on scriptural interpretation and literal meaning. If God said it, I believe it. God usually means what He says, and doesn't mince words about anything. If God says He will protect you, He does not mean something else. If He says in His Word He will heal you, He does not mean something else. If He says in His Word He will prosper you, you can count on that and not think it is just a symbolic statement. He intends to bless anyone who puts faith in His promises about a particular blessing. Get that condition though. Faith pleases God, because God knows He cannot help you without some faith from you. **"But without faith it is impossible to please Him." Hebrews 11:6**

God says He is light. Is that allegorical, symbolic, or is it literal? Is God really light? Is this a spiritual statement or a physical statement, or both? Do you need sun glasses to hang out with God in Heaven? You will not want to miss any section of this book, as I will delve into the subject of God's light very thoroughly, as this is fantastic stuff about the Bible and God.

For years, I have been a sci-fi fan. Yes, I am a man of God who loves sci-fi. I watched all the Star Treks, I saw all the Star Wars, and much more than that. At first, I just thought I was an entertainment and sci-fi movie junkie. But in more recent years, God has showed me some things about His Word and His Kingdom that are so far above and beyond sci-fi, it is wonderful to me. However, some sci-fi concepts allude to some real Biblical truths. My appreciation of sci-fi gives me a much deeper appreciation of God's amazing kingdom workings. I also have a deep interest in science. I watch the Discovery channel, the Learning channel, and the History channel. I also read quite a bit, but very selective reading, if something grabs me. Most of my reading is about the Word of God, but I will sit down and read a good science article. We as believers should not be ignorant. We should be able to bridge the gap between faith and the wonders of our Universe so we can communicate with the people in the world who we are called to minister and preach to. Many believers and even many ministers have little knowledge of deep things of God concerning nature and science. One of our callings at White Fields Ministries is to help other ministries with critical information that they can use for their spiritual influence. Yes, we have quite a few pastors, evangelists and teachers reading our materials. Many in the churches have not ventured very far into the scientific area of scripture. Part of this is lack of knowledge and maybe some fear.

I have found that many in the world who write and produce science fiction material have used their imaginations to produce things that are very interesting and profound. Some sci-fi is just

junk. But some of it parallels scriptural truth, and touches on it very closely. Many sci-fi writers have been willing to use God-given imagination and creativity to create universes and worlds of fiction that have some eerie degrees of truth about Heaven and the spiritual realm without even knowing it. Even sinful and unsaved man is somewhat made in God's image, to a degree, and has a mind that is amazing. Mankind has creatively thought up quite a bit of amazing stuff.

NASA and cutting edge science will tell you that Star Trek in the 60s and again in the 80s had things in it that we are just now doing in reality in science, such as the flip phone or the video-cam. Recently, in a documentary, I heard the inventor of the MP3 or Ipod device say that he was watching Star Trek in the 80s and got inspired to create music on computers. He also said he is now working on a halo-deck type of invention. On Star Trek, that was a device that projected an image of reality called a halo-gram. This type of inspiration for real invention based on fantasy is life imitating art. But could that art have been imitation of life, on another level, which is the spirit realm? Once you have read this book, you decide. All I am saying is that God is often involved in people becoming visionaries of the future, who might then put the images in fiction, until mankind has enough knowledge to put it in reality. If they are unsaved or just using limited human reason, then their visions may be somewhat inaccurate, while holding an underlying ring of truth also. Much has been said in sci-fi about light and it's scientific understanding. Science also has much knowledge and theory about light. Let's explore some ancient sharing and some inside revelations about light from the Word of God.

God's Light!

"This then is the message that we have heard of Him and declare unto you, that God is light, and in Him is no darkness at all." 1 John 1:5 Heaven needs no Sun and has no Sun. God lights it. We know knowledge is referred to as light, for God lights or illuminates our path in life. But scripture refers to God as more than that kind of light. There is a dazzling brilliance about Him. Call it glory, call it radiant energy, call it splendor and majestic glow, God is bright. We have something in nature, created by God that you can hardly look at. That is the Sun. God's brightness is greater than the Sun. No man has ever seen Him and lived, except in more safe forms, like the earthly body of Jesus.

Another earthly symbol of God's physical being is fire. Fire is very much like God. Fire is useful, helpful and destructive all at the same time. God is destructive of sin, and God will destroy the wicked at the end time. But God also provides us life giving energy and loving warmth, like fire does.

"For the Lord thy God is a consuming fire..." Deuteronomy 4: 24a Fire has one more characteristic. Fire is also light. So God says He is fire, and He says He is light. God looks like a person wearing a suit of light. He is totally covered in light. **"Bless the Lord O my soul, O Lord my God, thou art very great, thou art clothed with honor and majesty. Who covers**

thyself with light as with a garment." Psalm 104: 1-2b.

God even bestowed light and brightness on His angels. Satan, formerly known as Lucifer, was referred to by the Apostle Paul as one who transforms himself into an angel of light. (**2 Corinthians 11:14**) That is his description now, not back when he was Lucifer. He was light back then too. In fact, the name Lucifer means "light bearer"! Beware of Satan who can transform himself to appear like a Godly being in many forms, and I am sure most of Satan's fallen angels still can look like light. They are dark in their thoughts and motives, but they were given light by God, in appearance. **"Who maketh His angels spirits; His ministers a flaming fire." Psalm 104:4**

One third of God's angels fell with Lucifer. The Bible says so. That means we have 33% of all created angels, who God calls a flaming fire, wandering between hell and earth. God's holy angels, the 2/3 majority, do not like to be seen by mankind. God desires it that way. Only once in a while will people ever get an angel sighting. That is because God wants us to use and depend on faith, and mankind has shown an immature thread throughout history to worship things and beings other than God. Faith is based on what cannot be seen. If you have wanted God to show you an angel, He mercifully did not do so as to not shipwreck your faith.

Only faith will help you in God's Kingdom. If angels were more observed, and spotted around the earth, I know we would have a denominational religion probably called "Angelism" or something like that. Maybe I am being humorous here, but you get the point.

Let me quote **Deuteronomy 4:24: "For the Lord thy God is a consuming fire, even a jealous God."** God will not share His majesty. If we are prone to easily give our admiration to others, I can see why He might not wish us to see angels. There are however renegade angels, who follow Satan, who can make appearances at their own will. Since they are light, and fire, this seems to explain quite a bit of UFO sightings. Since the supposed aliens have never presented themselves for scrutiny, and cannot seem to land and say hello, and only appear like distant lights and fire and streaks in the sky, might one suppose that fallen angels may be a potential explanation? God never mentioned UFOs, but He did tell us quite a bit about fallen angels. The result of these supposed UFO sightings has been a new religion, called Ufology. People are donating their whole lives and fortunes to this religion. People are believing in Ufology without doubting and without their own proof. It sounds like a religion to me. Since this seems to divert people from the gospel of Christ, might there be a sinister and satanic root in the whole UFO concept? Might fallen angels explain many strange phenomena in our society? The Bible indicates that man is not alone on this earth, since the hordes of hell have freedom to roam it too.

God asked Satan once where he had been. Satan replied: **"From going to and fro in the earth, and walking up and down in it." Job 1: 7b** Foolish and unsaved man does not know he has an enemy of his soul who wishes to fool him and trick him and lead him to hell.

An alien abduction was once portrayed in fiction in the 1960's in a television show. All over the country, in America, after the show was aired, alien abductions were reported that year in mass. Then, this concept caught on in movies, television and literature, and from the 60s through the 90s, this idea ran amuck and snowballed with people declaring they didn't sleep in their own beds the night before.

This is not alien activity at all, but rather high suggest-ability, demonic activity, over active imaginations, and maybe a little attention craving. When you hear next time about UFOs and aliens, throw up a big question mark and do not be so quick to believe in everything floating around out there.

Don't even get me started on the Roswell tourist scam. The thing is documented, that a few guys set it up to make money. Another point is that most UFO crafts I see in recorded tapes kind of bounce around like a reflection my watch might make on the ceiling. Refractory light can do quite a bit of trickery, either on purpose or by accident. My feeling is that if there isn't a scientific explanation, there is probably a spiritual one.

The UFO enthusiasts say that it is prideful to think we are alone. As you will see from this writing, we are not alone. Spirits exist here on a large scale. But would God create a whole Universe just for us, and even other planets, stars and galaxies, just to minister to us? God is at the center of His own Creation and man is the crown of God's Creation. God loves mankind just like He loves Jesus. So you answer that question. Let me just say that when you get a revelation of *who* man is, and *who* you are in God, and in Jesus Christ, you might agree that you and the rest of us deserve a whole Universe to ourselves. One day soon, I will do an exclusive writing on UFO's and aliens. I have quite a bit of material on this, but you already know my position.

How Bright Is The Light of God?

God does not need the Sun. In Genesis, when He created all things, He said "**...let there be light...**" **Genesis 1: 3** When He said this, He was not creating light. He was only releasing His own light, into the Creation. His light already existed. But now, at that saying, His light was *in* Creation. Science says the Universe is expanding at the speed of light. I don't doubt that for a minute. God said it, and released it, and it will expand until He says "light stop." But then we see an interesting fact. Light was "in" Creation, but there was still no Sun. He spoke light into Creation on the 1st day. For 4 days, the Creation existed on God's light. At the end of the 4th day, God brought into existence the Sun and the Moon. He made the Sun – a greater light, and the Moon, a lesser light which is fed its light by the Sun, and then reflects it.

God said: "**...let them be for signs, and for seasons, and for days, and years.**" **Genesis 1: 14b**

What signs might the Sun and Moon be? At the end of 4,000 years of earth's history, God sent

Jesus to earth, to save it. Near the end of the 4th day, He made the Sun. God gave a key through Peter to understanding many things in the New Testament. **"But beloved, be not ignorant of this one thing, that one day is with the Lord as a thousand years, and a thousand years as one day."** 2 Peter 3: 8

Using God's own scale, it is easy to see He was showing the coming of Christ at the end of 4 days, or at the end of 4000 earth years. Every day when the Sun rises, God is preaching Jesus Christ to us. At the end of the 4th day, He sent the Sun. At the end of the 4 thousandth year, He sent His Son. That is how the Sun was to be a sign. Every night when it sets, God is setting up the next morning's sermon. But what about the Moon? Since the Moon reflects the Sun's light, and gives light in darkness, it is a sign of the church of Jesus Christ - you and me. Think about this. The Moon was created on the 4th day, and the church was created by Christ at 4000 years. The same 1000 year as 1 day scale applies here too. We, as the church, who know and love God, and have the light of the New Birth, reflect the image of Jesus Christ to a dark world. We literally shine the light of Christ's gospel while He is gone, just like the Moon shines the Sun's light while it is gone temporarily overnight!

God even used the Sun when referring to Christ in Malachi 4, the last chapter of the Old Testament. **"But unto you that fear my name shall the Sun of righteousness arise with healing in his wings..." Malachi 4: 2a** The writer very carefully did not write "Son", which He meant. He wrote "Sun", which is a symbol of Christ. The Sun arises, Christ arose. The Sun brings healing with its warm and healthy rays, Christ brought healing also.

The fact that God sees Himself as light is evident by this teaching. God is literally light, and symbolically also. God also brings light of thinking, light spiritually, and light physically. God's messenger, the Sun, is His ambassador. One side note is that the Sun was brought forth on the 4th day, as Jesus was brought forth on the 4th day of history. Jesus returned at that time, to Heaven. He promised to return. God took 6 days to create the Creation, and rested on the 7th. This indicates that at the end of 6 days, (x 1000) mankind's time for this age may be over. Although it is the year 2010, our calendar is not accurate. No one on earth knows what year on God's timetable it really is. This indicates that Jesus is due back any time, according to God's 7 days and Peter's scale of 1000 years. Why anytime? Because the millennial reign of Christ must take 1000 years, and that has not begun. However, there is no doubt in my mind that all will be completed in 7000 years. The end of 6000 years is now. This is speculation, but what else can we surmise?

To go one step further, Jesus rose from the dead on the start of the 3rd day. The start of the 3rd is the end of the 2nd. God does nothing by random choosing, but everything is related and most numbers and times in His Kingdom have meaning. Can Jesus' arising on the 3rd day be also symbolic of His returning day? At the end of 2 days after he died, he arose. After 2 days (x 1000) of being in Heaven after His ascension to Heaven, is that the scheduled return to earth? Again, this is speculation, but all Biblical scales given by God and all numerical symbols point to

Jesus' return any day. Why did He not return at 2000 AD? Our calendar is man's, not God's. No one really thinks Jesus was born on December 25th, and the first Christmas may have been around 4 BC, according to some. If man, who is quite fallible, lost 10-20 years somewhere in the last 2000 years, I can see how that might happen. Remember, science thought the world was flat, as late as 1500 AD. If that is the case, then spinning on 24 hour rotations would be not understood, therefore days and weeks and months, and years could be lost from our calendar, which was made centuries before Columbus. It does make one think, doesn't it? God's "2000" may be up any day, or in a year, or in 10 years.

God has no darkness at all. He is the most enlightened soul around. He will share that with you and me, as we seek light from Him. Let God flip on the light switch of your mind and spirit, and look around at His wonders, and His Kingdom. God intends for you to walk in His light daily in your life, and live in His actual physical light when you get to Heaven. Maybe this chapter has shed some more of God's light in your life. I hope so.

God Is Light! Part 2

“But the path of the just (believer) is like the shining sun, that shines even brighter unto the perfect day.” Proverbs 4:18

We are to grow in the light of God, brighter and brighter, like the rising day Sun, for the rest of our lives as we continue on our Christian walk. The day starts with a little light at dawn, but it shines the brightest at noon day. Dawn is like the time of our new birth and noon is like our final rapture or entrance to Heaven when we shall be like Him and see Him as He is. The time in between is a time of growing in the light and learning so that when we are at 10:00 AM or 11:00 AM in the daily Sun of our lives, we shine for God most brightly. At that point, we believers are full of light and reflecting the shining love of Christ here on Earth. One reason I write White Fields books is to impart light for believers so they may fulfill their destinies.

In Psalms 2:8, the Word said God “crowned” man with glory and honor. In the Hebrew, the word used for crowned was “to encircle” man with glory and honor. Man was literally surrounded by and clothed with God’s glory and light. **“Bless the Lord O my soul, O Lord my God, thou art very great, thou art clothed with honor and majesty. Who covers thyself with light as with a garment.” Psalm 104: 1-2b.** If God wears light like a garment, then Adam and Eve did also, and that is why they did not know they were naked before they sinned. Their rebellion and sin literally removed God’s glory and light clothing and created a form of spiritual death and spiritual and physical nakedness. Light was also removed from their thinking. Divine Wisdom had departed from them.

Jesus was sent to Earth, and when He came, this enlightened thinking re-entered the world. Jesus was given back even the physical light for a few moments on the Mount of Transfiguration. **“His face shown like the Sun, and His clothes became as white as the light.” Matthew 17:2b** Jesus

also has this light right now in Heaven. John saw Him as He is now: **“...and His countenance was like the Sun shining in its strength.” Revelations 1:16b** You might say, “OK Greg, Jesus’ face did shine bright, but He was the Savior. Are you saying we are able to glow too?” Moses was not our Savior, but his face shined so bright, he had to wear a veil over it. Don’t think we don’t shine as believers just because your physical eyes can’t see it. We can so shine in the spirit realm that demons are afraid to come near us. Sometimes they cannot tell if we are God or just people. That is how I want to shine. Might I shine one day, in a physical display? Last year, a few men saw a light coming off me as I prayed for men at a retreat. They really saw it. I was under the anointing, and power of God’s Spirit, as I was ministering. Whether the Holy Spirit just helped them to see into the spirit or the spiritual view came into physical view, I do not know. But you have this light too, if you are born again.

Jesus was and is a template of what we can be and are supposed to be and what we are to be restored to someday. He is the first born Son, but not the last born son. Jesus’ role and duty, given Him by the Father, is to bring many sons to glory, or, back to the glory they should still have if man had never sinned. (Ladies, you are included when we say, sons!) **“For it was fitting for Him, for whom are all things, and by whom are all things to bring many sons to glory...” Hebrews 2:10a**

How Does Man Get This Light Going Again?

The New Birth, or being *Born Again*, is the time that God gives the light, because God gives or recreates the human spirit in a person at their New Birth. After that, we live with the Spirit of Christ in us, and His light is in us. Over a year ago, the Holy Spirit spoke to my heart about light. I quickly sat down and wrote it down and filled up a page in a notebook. Ever since that day, God has been teaching me more and more. This light we have from God grows and grows. We get brighter and brighter. I guess I should qualify the different kinds of light. In no special order, there is real physical light, then the light of man’s knowledge, then spiritual light, then symbolic light. God has all. We as believers have mans’ “knowledge” light, but then we have “spiritual” light, and at times, by a gift of the Holy Spirit, we can exhibit “physical” light from God as Jesus or Moses did. Some of you are probably thinking that I am way out there! “Yes, thank you!” What a compliment! But I don’t think I am out there, I believe God is “in here” inside me, working with me.

God’s Candle

“The spirit of man is the candle of the Lord, searching all the inner depths of his heart.” Proverbs 20:27

Our human spirit is God’s candle. Since God does not need more light, then God’s candle is for our benefit. It leads us. It sheds light on our darkness until we walk in the light of God. This

candle gets lit when you are born again, and then it keeps getting stronger and brighter as you go on and learn of Christ and the Word of God. Yes, the believer is approaching noon-day with every bit of Godly revelation he or she learns. God layers in the revelation knowledge and the revelation and light gives even more light, until we are on such a learning curve that we soak up massive amounts of light from God and shine it right back out. God showed me to be a candle for others, lighting their way. God calls you to this too. **“The entrance of Your words give light. It gives understanding to the simple.” (Psalms 119:130)**

What are you trying to figure out? *Let God enlighten your human spirit for the solution.* You might dream it, it might hit you while driving in traffic, but God says His word gives understanding. Any nation that was *not* Jewish or Christian based, has ever had a large use for patent laws. Most 3rd world non-Christian nations usually borrow whatever technology from the more advanced Christian nations. Progress, technology, advancement, and invention are absolutely unique to and possessed by those with born again human spirits or by those who feed on the Old Testament and who drew on the Word of God in their spirits for light and understanding to solve problems. Even Einstein, a Jew, said when he discovered that great Theory of Relativity that he saw the mind of God. But Einstein was building on people of past generations who were saved men with born again human spirits. I am convinced the Jews have helped civilized advancement of the human race greatly, but would have never got it this far without the further enlightened Christians who are in touch with God by their human spirits. I say this with great respect for the Jews, but they have not come into the Christ experience yet, except in some unique cases, and that is the fact of the matter. The inventor of the computer was a Christian. I have a list of great contributors of history both in science and medicine and I will share it soon. Would we have the Internet if this Christian person did not invent the computer? What people have failed to see is that God has inched us along with knowledge and understanding for centuries, sharing light and sharing revelation. All the advancement was for one main reason. It was to saturate the Earth with the gospel and get the Love of God in Jesus Christ out to the masses through the creation of technology and media ability.

“But there is a spirit in man, and the inspiration of the Almighty giveth them understanding.” Job 32:8

People that are born again have 3 part beings. 1) spirit, 2) soul, and 3) body. (1 Thessalonians 5:23) People not born again have a soul and a body, but a dead, dormant human spirit. If you are not born again in Jesus Christ, you need to receive Him today and get in God’s great plan for you and all of mankind. People think Christians are weak and dependant, and unable to stand alone. They also think them simple minded and illiterate, kind of like hicks. The British author J. K. Rowling of the Harry Potter fame calls believers “muggles.” In her view, these are biased, ignorant and narrow minded people. She is actually simply sharing what the world thinks about believers in Jesus Christ and those who believe God’s Word.

Let’s see this last scripture again: **“But there is a spirit in man, and the inspiration of the**

Almighty giveth them understanding.” Job 32:8 Your human spirit is the Lord’s candle to illuminate your mental powers, and your path and destiny. Since one must be born again to possess a human spirit, it appears, and I believe this to be true, that born again people have brought civilization to its great heights, to the pinnacle of success, to medical breakthroughs, to space travel and technology, to energy solutions, to Internet and computer technology, and much, much more. The light of God got into the human race through Jesus Christ, and God continued to pour out light to man in every generation as man sought and obeyed God, and gave Him place. America owes what they are to God. All their prosperity, all their might, all their ideology as world redeemers and liberators of oppressed peoples is from God. All the wealth and inventions and discovery are from the enlightened born again human spirits. So they can call us muggles, or weird, or fanatics, or hicks, or co-dependents, but we know the truth: that the hope of the world and the nations is in Jesus Christ and His church. Not just receiving Him, for we must do that, but also allowing Him to light our way while still here on Earth.

If there is a solution to global warming, Christians will have it, or, at least theories and projects begun by Christians in the past. Science has stood on believers’ shoulders once the Christians got the breakthrough discoveries with God’s help. Then they denounced the Bible and raised up evolution, as if to bite the hand that gave them so much. Can you believe that?

Al Gore, in a past book he wrote – and it escapes me, what or where, said that to really save the environment, Christian groups needed to be removed from the scene. Hogwash! Again, sound energy solutions and planet helping inventions and discoveries can be brought forth by God through Christians, who have the light turned on in their human spirits.

I had a dream about 20 years ago that the cure for cancer was to be found in the oceans. Was that God? Since then, they have found things that help, maybe not a cure, but are helpful, like algae tablets, or shark cartilage, or spirulina, and many other ocean related things. Won’t it be crazy if we find that something in great supply like sea water was a great cure, or something like weeds, in such great supply, or other such things? Mankind has figured out so much, but we have only scratched the surface.

Light For You Personally!

Do you have an idea in you? Do you have a book or screenplay to write, or a business to launch? Might God have a way to solve your largest or your smallest problem if you just allow your human spirit some sway, and pray, and get at the Master’s feet, and wait for His light and direction to come into your soul? Wherever you go, you need to be the solution, and not the problem. He is a Redeemer, and so are you, if He lives inside you, and if He can guide you. Take the redemptive power to those around you, and get them enlightened solutions from your human spirit. You might have to come up into a higher walk in Him. If you are not saved, receive Christ. If you are not baptized in the Holy Spirit, receive the Holy Spirit, with the

evidence of speaking with other tongues. The Apostle Paul said to let him who speaks in a tongue pray that he interpret. (1 Corinthians 14:13) This is one way that light comes into your soul for solutions to problems. Jesus said that it is given unto you to know the mysteries of the Kingdom of Heaven. (Matthew 13:11) Paul said that when we speak in a tongue, we speak mysteries to God. (1 Corinthians 14:2) God knows all the mysteries, so those are for us. Now, by weaving these 3 scriptures together, If we speak in tongues and pray that we interpret, we get to find out some more mysteries from the Holy Spirit that Jesus said are for us. Don't you see it?

“Now Greg, my denomination or man of God said we Christians are not to speak in tongues, and that it was not of God.” Let me ask you one question: Why does this view of your denomination or man of God not agree with Paul, the Apostle, and the Holy Scripture? Until you start reading the Word for yourself, and deciding what you believe for yourself, and what the Holy Spirit is showing you, and not taking what someone else says as truth, you will be stunted as a Christian. Go read all the references I provided here. God's will in giving us the baptism of the Holy Spirit is to give us the power to reach the lost. Jesus told the disciples not to move an inch – “stay in Jerusalem until you are endued with power.” They were not to try to preach the gospel without the planned baptism of the Holy Spirit with the evidence of speaking in tongues. (Acts 1:4) Don't leave this gift on the table any longer.

“But if we walk in the light as He is in the light, we have fellowship with one another..” 1 John 1:7a

To walk in the light is to enter His realm, where He is, and have access to His wisdom, His knowledge, and His solutions. Many times in the real estate business people have said to me, “you're a miracle worker, or, you have an angel on your shoulder.” No angel is on my shoulder, but Christ is inside me, and the Holy Spirit makes available to me wisdom and light, and angels do serve Him, as He works through me. Angels are all around me, but none sit on my shoulder.

I have seen in my own life and career great problem solving abilities and I give God all the glory. I wrote as a child, short stories, but gave it up by puberty. I did not believe in myself. But when Jesus saved me and came into my heart, at 27 years of age, and I got filled with the Holy Spirit about a year later, and really received the gifts he had for me, my writing came back, and with a vengeance. I love to write and communicate ideas and thoughts, and God blesses it. While I am writing, I have a sense of destiny and quite a supernatural feeling about me. Most of this ability is so easy and effortless, and the ability to conceive thoughts and creative ideas in me is directly traceable back to my being baptized in the Holy Spirit and speaking with other tongues. I was also an introvert, painfully so, and the shyest person around. However, because I received Christ, the New Birth and His great Baptism of the Holy Spirit, I can speak to tens, hundreds or thousands of people effortlessly and without fear. It is as if I am watching it from another location outside myself. I am seeing it and sensing it from the Holy Spirit's view, and He is quite fearless.

Then God moves through me and my wife, and we prophesy and use the gifts of the Holy Spirit. We say things that we don't know. We have seemingly what the world would call ESP or clairvoyant experiences, and people are greatly helped. What this is is the gifts of the Holy Spirit, and the baptism of the Holy Spirit causes us to walk in great light. ESP and clairvoyance are Satan's cheap counterparts of the gifts of the Holy Spirit, and God has forbidden His people to use those. Supernatural gifts are from God for His use *through* us. We only steward them. I cannot turn this on when I want to. It takes people present with severe needs that God wants to touch. Then, He pulls a gift out of me, and gives it to them. God might show me a great trauma they had, or an injury or accident, and I tell them about it before they can tell me, and they see the proof and power of God in my life. Then, God has healed people of sickness or injury – even terminal or chronic disease through me and my wife, sometimes instantly and sometimes gradually. Sometimes there has been no healing at all. It is up to God. He knows the faith of the receiver. He knows the timing of His deliverance to people. At these ministry times are the moments of the greatest light in our souls from God. Some may think I am boasting. Not really. God wants many of you to do this too.

I risk much to share all of this, as some souls steeped or caught in religion may close this book right here when they read this. I risk it, however, in hopes that some of you catch your destiny, and see more light, and walk into more light of God.

Ministry is what God wants to do with your life, but first He wants to help your own life to be more blessed, and full. He wants to move in and shine the light of His love. He wants you to step up and receive more of Him, and simply trust Him. God wants Heaven's light to light your path on Earth. Adam lost his light and glory, and the human condition was in the dark. But Jesus Christ, Savior, Lord, Redeemer, Brother, Son to our mutual Father - He has brought it back to all of us who will ask for and receive it - the light and the glory of God. We receive it by faith in the Word of God. But you need to arise, and take His love, His light, His glory, His power and His abilities. *You* take the step to receive His light. We don't earn it, it is a free gift, but we receive by faith. I close this chapter with this Scripture verse, consider it a call from Him to you today: **“Arise, shine, for your light has come, and the glory of the Lord is risen upon you!” Isaiah 60:1**

God Is Light! Part 3

Saul was speaking threats and carrying them out against believers. He was condemning Christians to death and traveling around the countryside in his zeal to eradicate this new religion. He just knew this Jesus was a fraud and the new sect was a threat to the old Jewish traditions. So Saul went to the high priest for letters against any potential believers in Damascus. With these legal letters in his hands, he could go arrest the believers and drag them back, all bound up, stumbling to Jerusalem. This was the beginning of the end of Saul's career as a professional persecutor of God's people.

His mistake: there were no doubt believers praying in Damascus. Faith and prayer had been offered up to God, and God would move to stop Saul's work. You see, prayer works. God hears from Heaven and comes to the rescue. Saul was dealing in a dangerous business when he came against the new Christian faith and the new believers in Christ. Saul could easily have lost his life here.

God always does several things at once. Jesus protected believers in Damascus, Jesus converted Saul, who would become Paul, a great Apostle of God, and we get a glimpse of the light that Jesus seems to travel and live in.

“And as he journeyed he came near Damascus, and suddenly a light shown around him from Heaven. Then he fell to the ground and heard a voice saying to him, Saul, Saul, why are you persecuting me? ‘And he said, “Who are you ,Lord?”

And the Lord said, ‘I am Jesus whom you are persecuting.’”

Acts 9:4-5a

This is all it took to convert Saul. But first, he was struck blind. Do you think Jesus is a lowly shepherd, out tending some sheep? He is the Lord of Glory, the King of Kings, and He is Omnipotent God, Lord over Heaven, Earth, and Hell. Jesus appeared here in Glory of Light, from Heaven, and the man Saul was blinded for 3 days, until he was healed by the Holy Spirit through a believer. Saul was born again, and God changed his name to Paul. Note that Saul instantly used the name “Lord” as he knew he was in the presence of God Himself. Imagine his complete surprise and shame and immediate self abasement when he learned it was Jesus who was the Shining Light and Lord from Heaven. As my son says, “my bad” - a slang expression of the kids right now. Many in our day will feel this same absolute shock about Jesus when He appears to us from Heaven in His 2nd coming. But unlike Paul, it will be too late. Our generation of unbelievers seems to joke about Jesus, and mock Him and say the most common and silly things about Him, and they do not know of whom they are speaking. It is a bad idea to mock Jesus, or blaspheme His name. Not one word of a person, any person, falls to the ground idle.

I could teach much about this story of Saul who became Paul, and tell you how just a short time before this event he oversaw the stoning of Stephen. (Acts 7:60) I could tell you how Stephen literally forgave Saul and the others as each stone that hit him smashed the life out of him. Saul no doubt heard Stephen forgive him, and this prophetic utterance and release by Stephen in the Holy Spirit is probably why God was able to give the church, as a gift, the Apostle Paul. Never fail to forgive someone, because you do not know what God, in His wise plan, is trying to do next with that person. That person you need to forgive might be the next Apostle Paul to the church. In any case, praying believers, acts of forgiveness, and spiritual and prophetic releases all allow God legal access into the Earth to bring His Divine will to pass. But why would God need legal access? After all, He is God. I challenge you to find that out. Watch for a book I am releasing soon called “God’s Legal Access.” Let’s focus on the Light that Jesus showed up inside of to

Saul. **“This is the message which we have heard from Him, and declare to you, that God is light and in Him is no darkness at all.” 1 John 1:5**

$$E=mc^2$$

Albert Einstein, a Jew, contributed more to modern science than any person of history, and his discoveries are still being scrutinized and marveled at by scientists 100 years later. The year he got the famous theory, at its inception, it was said by him that he had a fitful sleep and awoke in the morning with a clear picture in his mind of the fabric of the universe, and the mind of God. This was 1905. That same year, Edison was bringing forth the light bulb. Most of Einstein's theory had to do with light. God gave both of these men these concepts. Why was God bringing forth scientific discovery about light at that time? Over in Los Angeles, California, God was bringing back the Baptism of the Holy Spirit as in the day of Pentecost, at almost the same time, and re-teaching it and re-sharing it with the church. The location was Azusa Street, 1906. Do you know how many times the local fire department was called to put out a seeming fire on top of the building at Azusa Street? But when they got there, it was not a fire they could put out, but rather like the tongues of fire on the heads of the followers of Christ on the day of Pentecost in Jerusalem.

God gave science the concept of light and many theories and gave the church help and revelation of the Baptism of the Holy Spirit at the exact same time in human history so that science and technology would be ready to spread the gospel, combined with the Baptism of the Holy Spirit, in the great end time revival. That is just ahead. The Internet, satellites, mass media, and many other technical advances all stem from men such as Einstein and Edison.

That was all 100 years ago. But God takes time in His deliberate planning and 100 years is really like a blink in eternity, and that incubation time is fast coming to an end, and things are being made ready, and God will move through His believers to bring forth a mighty end time harvest. Understanding of light, fiber optics, quantum physics and many other scientific applications will allow the church to bring the gospel to the masses. In fact, the Internet is God's Internet, He gave Godly men and women the knowledge to develop it. In the future, people using the Internet to spread evil are going to find themselves in danger like Saul, with their efforts being thwarted, and their lives under a curse. May Christ or an angel appear to those people with blinding experiences also and may they repent like Saul. Did you ever wonder what would have happened that day on the road to Damascus if Saul had not discerned Christ, and not repented for his attacks on Christians and his ways against the new move of God on the earth? His career would have been over that day, either way. May people way out of God's will and pursuing the spreading of evil and damaging the church take heed here and now.

Jesus showed up to Saul with blinding light, appearing to live in great light and to travel from Heaven to earth in light, and the light has its own huge and powerful manifestation when he appears. God is light, according to the Word, and the current form of Jesus is in some way

closely related to light also. Might this also be what our glorified bodies are partly or mostly composed of someday?

Einstein came up with a huge theory, $E=mc^2$. Energy equals mass times the square of the speed of light. Einstein was nick named “the light beam rider” by his peers. His theories had many interesting ideas. He conceptualized the following: When matter speeds up, time for that matter slows down. When matter hits the speed of light which is 186,200 miles per second, the matter disappears. This is called the Time Dilation Theory. When that same matter slows down, it reappears as matter again. It still existed while it was gone in the form of energy, or light. Also, when the matter hits the speed of light, time stops altogether. Some of this has been tested by science and it is all becoming provable fact and more than just Einstein’s theories. Scientists used a special kind of clock that measures time in milliseconds, and kept one stationary and another in a fast flying jet. They were both synchronized together beforehand. Afterwards, the fast flying clock, which was moving at 500-600 MPH for a lengthy period of time, lost a few milliseconds. Time slowed down at the higher speeds.

Matter is transformed into energy at the speed of light. This, according to Einstein, creates huge power. A tiny bit of matter, smaller than a raisin, if converted to energy, could light New York City for a whole day. Where am I going with all this? The thinking we can derive from this amazing knowledge is endless. In the last days, knowledge will increase. This was spoken of in the book of Daniel. It is not unscriptural for you to be reading this, or me sharing this, for in the last days, we will gain great understanding of science for God’s purposes. In scripture, God spoke of most of the things I am sharing from science. Want to see how and where?

Scenario # 1 - Jesus was going to be thrown off of a cliff one day by an angry mob. It was not time for Him to be sacrificed. The Word says He simply passed through the midst of them, unharmed, and walked away. If the Holy Spirit sped Jesus up for a moment, let’s say to the speed of light, His body, made of physical matter, would have converted to energy, and then back again in an instant. While not physical matter, He could easily pass through a crowd of people. Walking on water may use the same kind of theoretical process. *Luke 4: 28-32*

Scenario # 2 - The Word says God is eternal, and lives in eternity, and we will not be in time someday, but rather be like Him, in pure eternity. Einstein said when you hit the speed of light, time stops. When time stops, you are in eternity. Might eternity be made up of light, as God is, and the closer you approach light’s speed, the closer you approach the absolute slowness and timelessness of eternity? One great man of God once said, “when man through science found timelessness through light theory, he found eternity.

Scenario # 3 - Philip baptized the Ethiopian in water and came up out of the water and disappeared. He reappeared in another city about 20 miles away. In the Word, this is called translation. I submit, and this is conjecture, so do not say I am preaching this as a doctrine, that the Holy Spirit sped him up to the speed of light, converted him to energy, and then moved him in

a blink of an eye to the other city, slowed Him down, and set him down perfectly whole and happy for the ride. This is a miracle, and God has His own purposes for doing this, and when He does it, much time is saved. This will be an end time occurrence for some in the coming days. It has even already started. Are you one of those this might happen to? Would you like to fly Heaven Airways? *Acts 8: 39-40*

Scenario # 4 - When we theorize that matter turned into energy creates enormous power, such as matter the size of a raisin lighting an enormous city, then imagine the affects when God releases His energy into this realm of physical matter and the enormous burst of energy that would result. Miracles would then require special power as God transfers energy and substance of the Heavenly realm into this earthly realm. If God de-materializes a tumor, then He might simply dissolve it in the physical realm by converting to a non physical substance such as energy and then stop it from re-appearing anywhere, or, re-appearing back in Hell where it came from.

Scenario # 5 – Jesus and His Father live in another realm much different than us, where they dwell in light. To be more accurate, as written in 1 John 1: 5, they *are* light. That means they travel at 186,200 miles per second, or faster if they want. That causes them to remain in timelessness, or eternity. That also causes them to not be made of the physical matter we are made of, since that matter disappears at the speed of light. If Jesus appeared to Saul on the road to Damascus, He no doubt just slowed down, but as He did so, it caused Him to appear in the midst of blinding, brilliant and dazzling light. Since Jesus is larger than a raisin, and I say that with all seriousness, much power would be released at His appearing. Einstein was nick named the “light beam rider” but I submit to you that Jesus is the true “light beam rider” in reality. We cannot see Him and the Father as they are in the light realm, nor can we approach them at all, as we would have to speed up to the speed of light. The angels can approach this speed and no doubt live in it, with God, as that is how they were created. Also, to be in this realm is to be in timelessness, or eternity, or immortality. This is high conjecture, but might I have some scripture to back this up? Let’s see.

“... which He will manifest in His own time, He who is the blessed and only Potentate, the King of Kings and Lord of lords, who alone has immortality, dwelling in unapproachable light, whom no man has seen or can see, to whom be honor and everlasting power. Amen.”
1 Timothy 6: 16

These words of Saul, who became Paul, who was blinded and had a first hand experience of the unapproachable light of Jesus, are very gripping. Might Paul know what he is speaking about here? Immortality means the same as eternity, or timelessness. Unapproachable light means we cannot get up to that speed or then see what it looks like around us at that speed, or who is sitting there or standing there, but might we get there someday? Might this be the realm we enter when we are translated, whether in our bodies or out of our bodies? I discuss this more in the writing I have called “The Gifts of the Holy Spirit.” Translation is done through a Gift or Gifts of the Holy Spirit, and its New Testament purpose is for winning the lost. More than one Gift manifests

when translated. We need no understanding of the science involved, we need no effort and we need no special revelation to receive translation. But understanding and revelation cannot hurt either, as it can motivate us to walk in the Spirit more to receive such wonders.

Scenario #6 – We all know the scripture from Peter "**But beloved, be not ignorant of this one thing, that one day is with the Lord as a thousand years, and a thousand years as one day.**" **2 Peter 3: 8** If time moves slower as it approaches the speed of light, and God is light, then we moving at normal speed are at exact time, and God moving at 186,200 miles per second or above is at no time at all. Somewhere in between us and God is slower time. It is then not unfathomable, using our finite minds, to possibly think that on our slower physical matter end of the spectrum is 1000 years, and on God's faster light and energy oriented end of the spectrum is 1 day. People have calculated that if you took off in a spacecraft which travelled at super high speeds and you were gone for 30 days, you would have been subjected to slower times, and if you returned to earth decades, even hundreds of years would have probably passed. This scenario has been used in many Sci-fi movies and television, such as Planet of the Apes. These fiction writers were basing the concept on Einstein's theories, but I submit that this knowledge was in the Word of God by Divine Revelation from God for thousands of years. Man will never be able to do this, as man cannot enter unapproachable light speeds except maybe by God's Holy Spirit.

“This is the message which we have heard from Him, and declare to you, that God is light and in Him is no darkness at all.” 1 John 1:5

“But if we walk in the light as He is in the light, we have fellowship with one another..” 1 John 1:7a

You and I can go crazy trying to grasp this or understand it all, but since the Word of God states some things here, we must receive them by faith. Whether Einstein is right or not is of less importance, but God is always right. He was kind enough to share things in the Word a few thousand years ago that science has found out in the last 100 years. Here is just one more reason to believe in Him, and to believe that He loves us. My advice to you is to not be dogmatic about this information, and never debate it with people, as some of it is speculative. The church has gotten by for centuries without scientific knowledge, and if a believer wishes to stay away from this kind of thinking that is their right in God. Some are more comfortable relating to spiritual things only. I am an evangelist, and a teacher, and the gifting I walk in compels me to delve into the thinking world, that I may reach a few more people who can relate to God in natural areas. After all, didn't the Mighty Invisible God finally give man a visible Savior who could go down in earth's history as a flesh and blood person so that the Mighty Invisible God might reach those trapped in their 5 senses of reason, unable to view or relate to Him in His invisibility? God gave mankind a flesh and blood Savior who could be touched and felt by men, who then would testify to it after He was gone. Oh how much wisdom and love was present in that approach by Father God.

That concludes my scenarios points. I hope they compel you to study scripture yourself to see

how God has set up this marvelous universe for us, and the massive potential that we have as sons and daughters of God.

God is Light Prophecy (given by Greg Nichols on 2/15/10)

The Word of the Lord is a bright one to those who love Me, to those who keep My works until the end. Indeed will your lamp-stand shine bright in darkness, yes, that flicker that began so long ago in you at your new birth; and the flames of it I have fanned and blown on by My Spirit until you have been built into a raging fire of My Divine Love. To you whom I love I say to go forth and be bold in Me, and I will so cause your light to shine in darkness and overpower all the works of evil that stand before you, even that very thing you face that would topple or hinder your ministry, to you I am giving the power of My brightness to burn that thing to cinder and ash, and to then blow it away with a mighty breath of My Spirit. Stand this day and shine forth and use My Word.

Don't despair over dark rumors and evil deceptions, but rather My people will shine and bring answers and deliverance, and to each one who stands, I will cause the Morning Star of your heart to shine and glow even brighter, and the nations will be drawn to Me by the light of your Morning Star and you will see an amazing work take place in and around you as men approach Me through you and submit their lives and hearts to Me. This is your inheritance, this is your legacy from Me, that the heathen will come forth to you and partake of your light and drink Me in and live, and they will live and live for Me, and I will make them to shine also, until the whole earth is full of My Glory.

I say to you now is the time to pull in that which hinders your walk and give it to Me so that I may purify you and brighten your Morning Star, My Spirit upon you, and together, you and I can run the race and finish your course in a great victory. Do not be afraid of embracing My wonders of My Kingdom, for the wonders of your earth first existed in My Kingdom, and all of it has been put there for your use and for you to enjoy, and to help propel My Gospel. Yes, I will translate many from here to there and back again, and it will be done in My Light, and many will be amazed, and My other wonders will I show you before the end; the increased power to heal many people, and the Holy dominion and Holy Presence of My Morning Star to make Satan leave their bodies, minds and circumstances as I did while on earth, and I will give you the power to rule over and to receive nations with My rod of iron to break them in pieces, and to win them for Me, and to bring them unto My Father, as vessels of honor, and then the end will come.

So go now, for your time is short, and shine brightly and bring My light unto many, and fulfill the call you have been given, so you and I then may fellowship together over eternity and glow and live in our victory for all time, and be great lights for our Father, that He may enjoy us, and we Him, forever and ever. He that has ears to hear, let him hear.

PRAYER TO RECEIVE CHRIST

If you have never had a true relationship with Jesus Christ... if you have never asked Him into your heart, now is the time to do it. Don't wait any longer. Pray the following prayer and believe that He loves you know matter what you have or what you haven't done in your life. He died for YOU!

Pray this and begin your new journey with Christ Jesus! You won't be sorry, I promise!

Oh Lord, I confess that I am a sinner and that I need You in my life. I believe that You died for me and have redeemed me once and for all, so long ago on the cross, from all of my sins, past, present and future. Come into my heart and make me a new person. Change me and make me who You want me to be. Make me the person that You saw before I was even born. I give you all of my life; I give you my past, my present, and my future. I believe that the plans that You have for me *are* for good and I, from this day forward and with *Your* help choose to seek You with all of my heart and to walk out the rest of my life with You. I love you, Lord Jesus. Thank you for saving me!

If you prayed this prayer, *today* you are saved. You are a new creature in Christ Jesus. Old things have passed away, and your life is beginning anew. This is your spiritual birthday!
